

JOSHUA COLLIS

Fairfax, VA 22030 | joshua.collis233@gmail.com | +1 619 756 2790 | joshuacollis.space

PROFESSIONAL SUMMARY

Game developer and Computer Game Design student at George Mason University with hands-on experience shipping playable games in Unity, Godot, and Unreal Engine. Led multiple game-jam and coursework projects as project lead and primary programmer across horror, puzzle, and platformer genres. Strong foundation in gameplay scripting, iterative design, and team coordination, backed by leadership experience in high-volume retail. Portfolio & demos: joshuacollis.space.

EXPERIENCE

Front End Lead

March 2026 – Present

Micro Center | Fairfax, VA

- Lead the front-end department, coordinating staff and overseeing daily operational workflows
- Resolve escalated customer issues promptly and professionally; streamline checkout processes to reduce wait times

Customer Service Representative

January 2025 – March 2026

Micro Center | Fairfax, VA

- Leveraged deep knowledge of PC hardware and electronics to advise customers and answer technical product questions
- Resolved inquiries and complaints in a high-volume retail environment; sold warranties contributing to revenue goals

Assistant Youth Futsal Coach

October 2024 – September 2025

NPC Football and Futsal | Fairfax, VA

- Guided children ages 5–10 through footwork and fundamental skills; adapted training to diverse learning styles

Sales Associate

March 2022 – February 2025

Springfield Soccer Supplies | Springfield, VA

- Assisted customers (including language barriers) and processed inventory while maintaining accurate stock records

PROJECTS

Playable builds and full write-ups: joshuacollis.space

You Can't See It — Godot | Project Lead & Head Programmer | Halloween Jam 2023

- Designed and developed a small-scale horror game; owned core mechanics, environment design, scripting, and AI while coordinating a small team under a hard deadline

Dead Ed — Godot | Project Lead & Head Programmer | Halloween Jam 2024

- Built a puzzle game from concept to playable build; implemented core mechanics and level logic, integrated team assets, and managed GitHub workflow and role assignment

Liquor Wizard — Unreal Engine | Project Manager & Sole Programmer | GAME 310 Final

- Delivered a complete Unreal prototype with behavior-tree AI; learned Blueprints, Unreal Git practices, and AI design while managing the full cycle in one month

Samurai Free-fall Frenzy — Godot | Programmer, Designer & Repo Manager | GMTK Game Jam 2026

- Contributed gameplay systems and polish on a tightly scoped jam entry; managed the GitHub repo via CLI and drove focus on feel and visual/audio refinement

EDUCATION
